TABLE OF CONTENTS

NUMBER 1, APRIL 15, 1983

Sawyer, J T & Akeson, R A, Clonal myoblasts and myotubes show differences in lectin-binding patterns 1

Vitkauskas, G, Kole, J & Canellakis, E S, Biochemical assay of inhibitors of metabolic cooperation 15

Pentland, A P & Marcelo, C L, Modulation of proliferation in epidermal keratinocyte cultures by lowered oxygen tension 31

Harris, D W, Arad, G & Beebee, T J C, Transcriptional activity in previtellogenic oocyte germinal vesicles from *Xenopus laevis* 45

Schonberg, S, Patterson, D & Puck, T T, Resistance of Chinese hamster ovary cell chromatin to endonuclease digestion. I. Reversal by cAMP 57

La Claire II, J W, Inducement of wound motility in intact giant algal cells 63

Hiragun, A, Sato, M & Mitsui, H, Stimulation of cell proliferation by vitamin A derivatives on murine sarcoma virus-transformed mouse cells in serum-free culture 71

Burmer, G C, Motulsky, H, Zeigler, C J & Norwood, T H, Inhibition of DNA synthesis in young cycling human diploid fibroblast-like cells upon fusion to enucleate cytoplasts from senescent cells 79

Boliska, S A, Snyder, F F, Mosser, D D & Bols, N C, The transfer of 5′-methyl-thioadenosine from B82 cells through the medium to DHW-1102 cells 85

Van der Schroeff, J G, Havekes, L, Emeis, J J, Wijsman, M, Van der Meer, H & Vermeer, B J, Morphological studies on the binding of low density lipoproteins and acetylated low density lipoproteins to the plasma membrane of cultured monocytes 95

Friedl, E, Miyake, A & Heckmann, K, Requirement of successive protein synthesis for the progress of meiosis in *Blepharisma* 105

McGwin, N F, Morton, R W & Nishioka, D, Increased uptake of thymidine in the activation of sea urchin eggs. II. Cooperativity with phosphorylation, involvement of the cortex, and partial localization of the kinases 115

Derenzini, M, Pession, A, Betts-Eusebi, C M & Novello, F, Relationship between the extended, non-nucleosomal intranucleolar chromatin in situ and ribosomal RNA synthesis 127

Kosher, R A & Walker, K H, The effect of prostaglandins on in vitro limb cartilage differentiation 145

Okuda, A & Kimura, G, Kinetic analysis of entry into S phase in resting rat 3T1 cells stimulated by serum. Effects of serum concentration and temperature 155

Frair, P M & Peterson, A C, The nuclear-cytoplasmic relationship in "mosaic" skeletal muscle fibers from mouse chimaeras 167

Heumann, R, Kachel, V & Thoenen, H, Relationship between NGF-mediated volume increase and "priming effect" in fast and slow reacting clones of PC12 pheochromocytoma cells. Role of cAMP 179

Galdieri, M, Zani, B M, Monaco, L, Liparo, E & Stefanini, M, Changes of Sertoli cell glycoproteins induced by removal of the associated germ cells 191

Imhof, B A, Marti, U, Boller, K, Frank, H & Birchmeier, W, Association between coated vesicles and microtubules 199

Williamson, D H, Johnston, L H, Fennell, D J & Simchen, G, The timing of the S phase and other nuclear events in yeast meiosis 209

SHORT NOTES

Nagano, H, Okano, K & Ikegami, S, Changes in deoxyribonucleoside triphosphate pools in the starfish oocyte during maturation and early embryogenesis 219

Knuutila, S & Pohjanpelto, P, Polyamine starvation causes parallel increase in nuclear and chromosomal aberrations in a polyamine-dependent strain of CHO 222

Nemoto, S-I & Ishida, K, Changes in cGMP levels on meiosis reinitiation of starfish oocytes 226

NUMBER 2, MAY 1983

Nilsson, J, Ksiazek, T, Heldin, C-H & Thyberg, J, Demonstration of stimulatory effects of platelet-derived growth factor on cultivated rat arterial smooth muscle cells. Differences between cells from young and adult animals 231

Ravid, A, Rubin, A L, Novogrodsky, A & Stenzel, K H, On the mechanisms of inhibition of lymphocyte mitogenesis by high conA concentrations 239

McKay, I, Collins, M, Taylor-Papadimitriou, J &

Rozengurt, E, An inhibitory effect of tumour promoters on human epithelial cell growth can be dissociated from an effect on junctional communication 245
Wilkinson, P C & Lackie, J M, The influence of contact guidance on chemotaxis of human neutrophil leukocytes 255
Oberley, T D, Murphy-Ullrich, J E, Albrecht, R M & Mosher, D F, The effect of the dimeric and multimeric forms of fibronectin on the adhesion and growth of primary glomerular cells 265
Chang, P L, Georgiadis, N, Joubert, G I & Davidson, R G, Gene dosage effects on human diploid and tetraploid fibroblasts 277
Maul, G G & Baglia, F, Localization of a major nuclear envelope protein by differential solubilization 285
Kierszenbaum, A L, DePhilip, R M, Spruill, W A & Takenaka, I, Isolation and culture of rat seminal vesicle epithelial cells. The use of the secretory protein SVS IV as a functional probe 293
Blat, C, Harel, L, Villaudy, J & Golde, A, Rous sarcoma virus-induced changes in the pattern of phosphorylation of non-histone nuclear proteins 305
Picard, A & Dorée, M, Hormone-induced parthenogenetic activation of mature starfish oocytes 315
Picard, A & Dorée, M, Is calcium the second messenger of 1-methyladenine in meiosis reinitiation of starfish oocytes? 325
Gerber, P S, Ricardo, M J & Grimm, D T, Association of 5′nucleotidase activity with immature granulocytes in the bone marrow of guinea pigs 339
Morimoto, K, Sato, M & Koizumi, A, Proliferative kinetics of human lymphocytes in culture measured by autoradiography and sister chromatid differential staining 349
Berebbi, M, Foa, C, Fabre, I, Imbert, E & Lipcey, C, Cytolytically active murine T-lymphocyte/polyoma virus-transformed fibroblast hybrids 357
Sorrentino, J A, Millis, A J T, Whipple, A P & Colquhoun, W R, Lymphoblastoid cell variant in contact-mediated cell spreading 369
Lechner, J F, Kaighn, M E, Jetten, A M, Groden, J & German, J, Bloom's syndrome cells have an abnormal serum growth response 381
Soda, R & Tavassoli, M, Distribution of insulin receptors in liver cell suspensions using a minibead probe. Highest density is on endothelial cell 389
Takagi, N, De novo X chromosome inactivation in somatic hybrid cells between the XO mouse embryonal carcinoma cell and XY rat lymphocyte 397
Morton, C C, Brown, J A, Holmes, W M, Nance, W E & Wolf, B, Stain intensity of human nucleolus organizer region reflects incorporation of uridine into mature ribosomal RNA 405
Jennings, S D & Ham, R G, Clonal growth of primary cultures of rabbit ear chondrocytes in a lipid-supplemented defined medium 415
Fagraeus, A, Orvell, C, Norberg, R & Norrby, E, Monoclonal antibodies against epitopes shared by actin and vimentin obtained by paramyxovirus immunization 425
Simonneau, L, Herve, B, Jacquemin, E & Courtois, Y, State of differentiation of bovine epithelial lens cells in vitro. Modulation of the synthesis and of the polymerisation of specific proteins (crystallins) and non-specific proteins in relation to cell divisions 433

SHORT NOTES

Elias, L & Wood, A, Distinctive patterns of cAMP binding proteins and their relationship to hemopoietic cellular differentiation 447
Ferraro, M & Lavia, P, Activation of human ribosomal genes by 5-azacytidine 452
Smith, T A & Hooper, M L, Medium conditioned by feeder cells inhibits the differentiation of embryonal carcinoma cultures 458
